Examples: Booth Size: 10 x 10 (fully contained) = 10 x 10.

10 x 16 (fully contained) = 10 x 20

- E. If you are located up against the mesh, metal fence, in the Wells Fargo parking lot, next to the alleyway, **your booth corners must be butted all the way up against the fence** (you may not leave a “gap” behind your tent/cart for misc storage). We are trying to ensure there is the widest walk way in between booths so that you may maximize the size of your lines.
